# Our Family Products

## Persian Red Willow

"Our Family Products" Co. has officially started its work in producing-selling the red willow since 2011 and during this period , we tried to afford the best possible quality to our clients. "Our Family Products" Corporate include three Departments.

#### Cultivation, Domestic sales and International Sales

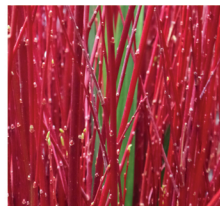

The Red willow is grown in the Mahallat- Iran. Due to its cold climate and mountain coverage it has one of the best environments for growing the red willow in the world.

#### RED (PURPLE) WILLOW

Red Willow, is also called Purple Willow, a small tree from Salicaceae species with slender standing branches which generally reaches up to 45 ft (14 m) in height, Like most other willows, it commonly grows along riverbanks and in other areas with high soil moisture. The plant has slender flexible pedicle that is greenish brown in the shaded areas and reddish purple in the sun.

#### Our Goal :

1. Enhancing the quality of the red willow by focusing on modern scientific methods of planting and harvesting
2. Expanding the global sales market through increasing customers' satisfaction
3. Focusing on customer needs and try to upgrade the customer needs and striving to exceed their expectations
4. Improving the delivery speed and shipping as well as packaging and sanitation issues.

#### ● RED WILLOW PACKAGING :
